PRICE TWO CENTS

Buried Treasure!

LONG AGO, men seeking a safe and secret depository for their money and plate dug a hole in the ground and buried their treasure, often to lose it from one cause or another.

TODAY, even after centuries of progress and enlightenment, there still are people who prefer to hide their money in "secret" places, only to lose it by fire or theft.

The safest depository for your money and valuables is the one everybody knows about - The Bank.

WELL-KNOWN STATESMAN HERE TO-DAY

Count Albert Apponyi to Speak at R.V.C.

MAGYAR LEADER

Will Speak on Conditions in Near East

Count Albert George Apponyi, speaker of the House of Representatives of Hungary, (or the Magyar Republic as it is known officially), well-known Continental statesman, and eloquent leader of the Hungarian peace delegation at Versailles, is to speak in the Convocation Hall of the Royal Victoria College this evening at 8.30 o'clock. His subject, which is one of great interest and importance, and which Count Apponyi is in a position to handle authoritatively, is "The Present Situation in the Near East." Anyone who has not yet procured a ticket for this lecture may get one by applying to Colonel Bovey, assistant to Sir Arthur Currie. He is also to speak at the luncheon tomorrow of the Women's Canadian Club.

The Count has been lecturing in the United States and Canada under the auspices of the International Institute of Education. He has recently spoken in Toronto and Ottawa. He will arrive at 5.45 this afternoon at the Bonaventure Station, and will be met there by Col. Bovey.

Count Apponyi, scholar, editor, statesman, who was exiled to Vienna when the Bolsheviks came in power, is now traveling in the United States. He has written an article on Count Apponyi (pronounced with the accent on the first syllable), which appeared in the Fall Book Number of the New York Nation, from which the following is extracted:

M. THOMAS SPEAKS ON BEAUX ARTS

French Journalist Lectures at Ritz-Carlton

INSPIRING SPEECH

Local French Society Holds Fourth Meeting of Season

Last night in the hall of the Ritz-Carlton Hotel the fourth meeting of the season of the Alliance française was held, at which M. Louis Thomas, French journalist and writer, spoke. His subject was "Les beaux-arts dans la province de Québec" (The Fine Arts in the Province of Quebec). After an exceedingly brief introduction, M. Thomas "à pris la parole" and gave a most inspiring and instructive address, which held the fixed attention of the audience for almost an hour and three-quarters.

M. Thomas prefaced his lecture by saying that his plan was very simple. "I am not here to give you a course in the history of art," he said, "but to give you a glimpse of the life of the artist in the province of Quebec." He then made some remarks in praise of the French Canadian artist, but to point out the general tendencies in the cultural life of French Canada. He pointed out that the lack of artistic thought among French-Canadians, for such there is comparison with the French of the old country, is undoubtedly due to Canadians having had to fight for the preservation of their race, their language, and their religion, resulting in statesmen having had little time for the promotion of the purely artistic. Poland, Bohemia, and Czechoslovakia have had to go through the same period of racial history, and are now well on the way to having a great artistic life.

Then, dealing with things more particular, M. Thomas spoke of the far from comely facades and stilted houses of Montreal with their way like ladders. He mentioned the many churches, which once stood on the banks of the St. Lawrence, and suggested that there was far too much attempt at luxury and that the spires especially were illogical. The

To Address Canadian Club at Five To-Day.

FROSH-SOPH BANQUETTING PLANS AWRY

Advance Preparations Were Under Way

AT UNION

Discord Crept Into Well-Laid Plans

The rushing and fighting and upheaval of Fresh initiation was to have come to an end this year with a great, friendly Freshman-Sophomore banquet. But instead of ushering in a time of peace and happiness, the Banquet seems to be causing a lot of trouble.

In the beginning the Freshman presidents seem to have held a meeting at which it was decided to have a Freshman-Sophomore banquet of all the Faculties in the Union. It looked a fine plan but right there the trouble started.

However, as yet, the Freshmen were blissfully unaware of the gathering complications and in the majority of cases, went ahead with their plans, arranging with Mr. Monnegar of the Union Cafeteria for the handling of the banquet. Chickens were ordered, and cheese dishes were also ordered; and extra table linen purchased.

(Continued on Page 4)

RHODES MAN AT CANADIAN CLUB TO-DAY

Mr. Wm. Rose, M.A., to Address Meeting

AT 5 P.M.

Topic on Present Politics in Europe

For the first meeting of the year, the McGill Canadian Club have secured as speakers, Mr. William Rose M. A. (Oxon.) a Canadian who has made a name for himself as a scholar and an authority on political and economic conditions in Europe.

Mr. Rose was the first Rhodes scholar to go to Oxford from the Province of Manitoba. Since then a great deal of his life has been spent on the continent. He became Secretary of the Y. M. C. A. in Poland in 1912, and has translated a book written by an eminent Polish political economist and social reformer, entitled, "The Desire Of All Nations." Mr. Rose was in Poland at the outbreak of the war and was interned there.

Since the war, he has written for the Associated Press of New York, an article, "Europe in Travail", and is at present on a lecture tour of Canada and the United States. The subject of his address before the Canadian Club at Convocation Hall, today at 5 p.m. will be, "Europe Politics," a subject of great interest at the present moment, and one on which Mr. Rose is well qualified to speak.

With the selection of Mr. Rose as their first speaker for the year, the Club have made an excellent start in maintaining the high standard set in last year's meetings, at which the members were given the opportunity of hearing some of the world's most eminent men.

MANY HEARD SIR H. GRAY ON SURGERY

Famous Newcomer is Popular With Students

WAR RECORD

Medicals Filled Hall to Overflowing

Last evening the Assembly Hall of the New Medical Building was crowded with approximately three hundred students to hear the opening address of Sir Henry Grey to Medical students. The speaker was introduced in a few well-chosen words by the president, Frank Eimmons, who gave a brief history of the career of the famous surgeon, Sir Henry, graduated in 1895 from Aberdeen University where he played a prominent part in athletics and was a very popular was appointed lecturer in surgery and later, took post-graduate studies in Europe. At the onset of the war Sir Henry went to France where he occupied the position of Consulting Surgeon to the third army. Following this he was appointed consultant in special military surgery in England. In 1918 he received the title of C. B., in 1918, C. M. G., while later he was made K. B. C.

Sir Henry took as the subject of his civil military surgery in England. He embodied the chief principles of modern developments in that line. He showed that one must have a definite knowledge of the normal anatomy and physiology of the human body before one could treat the abnormal. In addition to this a thorough study of function in lower animals enables one to understand more easily, human processes. He also stressed the fact that upright posture in man, unlike the animal kingdom, was the cause of a great deal of intra-abdominal lesions because of the lack of support in man of the abdominal contents.

As students, Sir Henry emphasized the importance of working out the diagnosis of cases for oneself together with the treatment necessary. He stressed the fact that the student should regard each case as a human life which is to a great extent dependent on his careful diagnosis and treatment.

MONTREAL, TUESDAY, OCTOBER 23, 1923.

THE FRESHMAN-SOPHOMORE BANQUET

To plan is one thing. To accomplish is another. And to-day the University wakes up and finds itself faced by concrete examples of both statements. In certain circles men have been dreaming of a great freshmen-sophomore festival. Caps were to be burned and the ashes were to fertilize the old campus. Then the Union was to be the scene of a hitherto unequalled spectacle, for the men of the first year were to give a banquet there for their lordly superiors. The hatchet was to be buried and all was to end with united peace and harmony. These ideas were good and before long they took solid form, becoming actual plans and arrangements.

But even the best laid plans may crash and the ones under discussion, having been sadly riddled, are to-day in a somewhat shattered condition. The cap burning is still on the schedule but that, according to present indications, will witness the end of united action. The Union, in many cases, is being deserted for the prouder food palaces in the district of bright lights and the multi-banquet system is replacing the proposed general gathering. The Daily has made enquiries into the most recent developments and there are some unpleasant and almost unaccountable features in the situation. We are not prepared to censure or blame anyone but the following facts may be of interest to the undergraduate body at large. The freshmen plans for banqueting the sophomores at the Union reached a sufficient stage of development to warrant the ordering of the necessary food, the purchasing of extra table linen and the renting of dishes. Suddenly the programme, in certain faculties, is changed. Upon good authority we have learned that second year and some first year men did not wish to dine at the Union. In certain instances, it is said, they did not care to associate with the remaining portions of the first two years. Others did not believe that the promised banquet would be suitable to their highly developed Epicurean tastes. And finally there were at least a few who mentioned the fact that the Union served ginger ale—and nothing stronger.

The results are obvious. The caterer is cancelling orders, trying to reduce expenditure to a minimum. Those who worked and planned are disappointed. Disorder has taken the place of order. It is to be sincerely regretted that things have taken such a turn. The Union is certainly worthy of patronage. The uniting of all freshmen and sophomores in one great event would have created, moreover, a remarkable precedent, which would have been followed in future years. The banquet itself would have been of the highest order, for the caterers have demonstrated conclusively that they serve only the best. And, in conclusion, the Union belongs to us. Why then should we not dine in our own house?

But we need not yet talk in terms of "might have been" and "would have been." At least two sophomore classes have not decided definitely upon their course of action. If they want to help the Union, if they want to assist the frosh in bringing their plans to a successful conclusion, the way is clear. Other classes have already stated that they are holding their banquets elsewhere. Is there any possibility of a change of mind? We hope so.

TWO IMPORTANT LECTURES TO-DAY

McGill undergraduates will be given the opportunity to-day of listening to two speakers, who have come here to talk on "The Present Situation in the Near East" and "The Political Situation in Europe." The topics are vast but we can rest assured that they will be dealt with in an able manner, for both men are in positions from which they can speak with authority and no small amount of decisiveness.

The more venerable and more noted speaker, Count Albert Victoria College. Count Apponyi, who is speaking here under the auspices of the University, is Speaker of the Hungarian House of Representatives and has attracted much attention by the lectures which he has delivered already on this continent. He is a member of a famous family and has established a widespread reputation for himself. He should be well worth hearing.

Mr. William Rose, M.A., who has spent many years in Poland, is the other speaker. Mr. Rose has lived in the very midst of the recent Central European turmoil and has witnessed states rise up and government crash down. But Mr. Rose has not only witnessed these things. He has also studied them with all the care and attention of a thorough student and will cast many interesting lights on the Old World chaos.

Mr. Rose is speaking before the McGill Canadian Club at five o'clock and first year students especially are reminded that all undergraduates are members of this organization. This is the first gathering of the season for the Club and it is hoped that to-day will witness the commencement of a successful year.

CONDENSED COMMENT

The annual financial campaign of the McGill Students' Christian Association is being launched to-day. The budget has been published in the columns of this paper and it was seen that a goodly portion is devoted to the support of the McGill Mission in Ceylon, under the direction of Mr. Murray Brooks. The Association conducts manifold and worthy activities and though at times it is criticized, it is worthy of wholehearted financial support from the undergraduate body and from the professoriate.

NOTICES

MESSAGE OF CONDOLENCE

The Class of Arts '26 take this opportunity of offering their heartfelt sympathy to one of their members, Robert Craik, in his recent bereavement. Mr. Craik's father, who died suddenly last Saturday, was a prominent citizen of Chateaugay, and leaves a widow and two sons.

ARTS UNDERGRAD.

All Arts students are expected to attend a meeting of the Arts Undergraduate Society to be held at the Union on Wed. 24th at 8 p.m. Prof. Matthews will speak. Chas. Hutchins, humorist, will also entertain. Refreshments are to be served in the cafeteria.

CANADIAN CLUB.

A meeting of the McGill Canadian Club will be held in Convocation Hall, R.V.C., to-day at 5 p.m. Mr. Rose will address the club on the "Condition of Affairs in Europe." All women students are invited and will be admitted to the floor of the Hall without tickets.

R.V.C. students may, if they wish, use the gallery.

R.V.C. '24.

All members of R.V.C. '24 are requested to give two dollars to Miss Brooks, the class treasurer. This includes class and "Daily" fees.

R.V.C. SPORTS.

Practices will be held from 2-3 p.m. to-day. See Athletic Notice Board for the place at which the practice will be held—the Stadium of R.V.C. A Turf-of-war will be held to-day at 1:10 p.m. behind the R.V.C. All four teams are asked to turn out.

MEDICAL INTERFACULTY RUGBY PRACTICE.

Tuesday 4 p.m. on the Old Campus will the following men turn out for practice:

Grassie, Chisholm, Cheeseman, Milligan, Roche, Hamilton, Rankin, Gennery, Riddon, Chalmers, Matthews, Zuick, Quackenbush, Taylor, McLeod, Aber, Walker, Elderkin, Dempsey, Boyle, also any man who wishes to try for a place.

DENTAL UNDERGRAD SOCIETY

Meeting of the Dental Undergraduate Society in Assembly Hall of New Medical Building at 8:30 to-night.

STRATHCONA HALL RESIDENTS' BANQUET

Wednesday, Oct. 24th at 6:30 p.m. Tickets \$1.10. Mr. Wm. Rose will speak.

ARTS '25.

Will all Arts '25 men please pay the class levy of \$1.00 to T. Newton as soon as possible.

MEDICAL SOCIETY

Sir Henry Gray, surgeon in chief of the Royal Victoria Hospital will give an address on Natural Surgery, at the Medical Undergrad. Society meeting on to-day, Oct. 23rd at 8:00 p.m. in new, Med. Building.

MANDOLIN CLUB.

The initial practice of the club will be held this coming Tuesday 7:30 p.m. at Peate's Music Studio, 584 St. Catherine St. West. Everyone interested in the club especially newcomers are more than welcome.

FRENCH LECTURE.

A lecture on "Fine Arts in the province of Quebec" will be given at 8:15 p.m., Monday next, in the hall of the Ritz-Carlton Hotel. The speaker is Mr. Louis Thomas, French Journalist and writer.

This lecture is being held under the auspices of the Alliance Francaise on the occasion of their Fourth Reunion. Tickets may be procured free on application to Dr. Paul Villard, Sec'y, 17 Avenue Vendome.

Practise of all Arts men interested in soccer on Wednesday at 4:30.

A team will be picked for the game with science scheduled for Thursday.

HISTORICAL CLUB

Professor Basil Williams will address the Historical Club at his residence 36 Arlington Avenue, Westmount, this evening, Tuesday, Oct. 23rd, "Canada's Debt to Park." Oct. 23rd, "Canada's Debt to Park."

Active and honorary members are asked to be present. Fees may be paid now to L. Sassenwein, Arts '24, the Treasurer. Members are requested to give the Secretary, A. R. Bonte Arts '24 their addresses and telephone numbers.

Sophomores of the Faculty of Dentistry will be guests of their junior brothers, the freshmen, at a dance in the Venetian Gardens on November 13th.

TRACK TEAM NOTICE

The Associated Screen News are going to take motion pictures of the Track Team at the Stadium, Wed., Oct. 24th at 1 o'clock. These pictures will be shown throughout Canada, so all of the men who went to Toronto

ONE HUNDRED AND FIFTY TICKETS ONLY

Dance Enthusiasts Line-Up for 1 O'clock

Informal dances at this University are sufficiently few in number to ensure keen competition amongst those desiring to be present. The first dance of the season always is amongst the most popular events at the beginning of the year, and the affair Friday will be no exception. The tickets go on sale to-day at one o'clock, and anyone passing the Union half an hour before that time will see the usual line-up of lucky men. Last year those joining the line at one o'clock purchased the last few tickets, while those who arrived at five minutes after one were sadly disappointed—the hundred and fifty cards had been sold to those further up in the queue.

The refreshments always are an important part of the evening, and special care is being taken of this item by the cafeteria manager. The dining room, at present being used by the football men for training table has been improved by the installation of a softer lighting system.

The McGill Dance Orchestra under Cloutier's leadership is to provide the music again, and will welcome the crowd with even better selections than the McGill dancers enjoyed last year. The new programme drawn up by the Union House Committee follows—

1. Waltz.
2. Fox trot.
3. Fox trot.
4. Waltz.
5. Fox trot.
6. Fox trot.
7. Waltz.
- First Supper.
- Extra.
- Second Supper.
- Extra.
8. Fox trot.
9. Waltz.
10. Fox trot.
11. Fox trot.
12. Waltz.

The tickets are on sale at the Union at one o'clock.

COMMERCIAL SOCIETY MEET NEXT WEEK

Date and Speaker Announced Later

A GET-TOGETHER

First Meeting Open to All Commerce Men

Owing to the many and various things taking place these coming evenings it has been thought advisable to put the meeting of the Commercial Society off till next week. It is hoped that then there will be a general turn-out of every man in the School of Commerce.

This will be the first opportunity for every freshman to meet the men of the second and third year and vice versa. No matter whether the annual fee is paid or not, the first meeting is open to everyone and it is up to each one to be present.

A prominent Montreal business man will be the speaker for the evening. He will give an address on practical business dealings and his own general experience in the commercial world. The speaker and the date will be announced in the "Daily" at a later date.

are asked to appear in their track suits at the above hour.

F. M. Van Wagner,
Track Coach.

NOTICE FENCERS

Old hands at the game are expected down as well as newcomers. McGill needs her experienced swordsmen to train for the Assault. All members are urged to pay the fee of \$5.00 without unnecessary delay. Members will be notified as to purchase of foils as soon as possible. Masks and jackets will be obtained instantly. Next practice—Thursday, Union, at 5 p.m. Practices held Monday and Thursday at 5 p.m. invariably.

ANNOUNCEMENT

The Newfoundland Club smoker will take place at the Union Wednesday evening at eight p.m. The speaker of the evening will be Dean Thornton of the Faculty of Dentistry.

Smokes and a musical programme are being provided and a good time is assured to all who attend. Early appearance, in order that certain necessary business be transacted before the programme commences.

SOCIETE FRANCAISE

The first meeting of this society will be held on Thursday, Oct. 25th at four o'clock in the Common Room of R.V.C. When Monsieur Thomas, a well-known lecturer and author, will address the society. At the close of the meeting tea will be served.

SOCCER.

Will the following Science men please turn out to practice this afternoon at 4:30 on the Old Campus. The team to play against Arts on Thursday will be picked from those turning out.

Alley, Brain, G. Blackford, C.E. Blackford, A. A. Chave, Strendwick, Gegg, Thomas, A. C. Hinfrel, G. Moffat, S. T. Hutton, T. G. MacLeod, M. D. Taylor, F. D. Barrett, R. E. Archer, A. C. Johnson, H. C. Lister, A. Godel, T. Plant, H. and any other Science men who are interested.

All "Electricians" who are going on the trip to the Hochelaga plant should be at the Union at 2:15 sharp this afternoon so that the party may start early and be able to return in time for the various activities at 5 o'clock to-day. All lecture, laboratory and problem work in the third and fourth year electrical has been cancelled for the afternoon.

The monthly meeting of students interested in the S.C.A. will be held in Strathcona Hall on Thursday evening at 7 o'clock.

Mr. Rose will speak of the Student Movements in Central Europe and an opportunity for questions and discussions will be given.

HARRIER MEET

The University Harrier Meet will be run from the Stadium at 3:30 p.m. Friday, Oct. 26.

Will Grimson and Ruben please show up to run with the Harriers this afternoon at 5 o'clock.

ARTS FOOTBALL

Would the following please turn out this afternoon on the Campus at 2 p.m. in uniform to get ready for game on Wednesday:

Bell, Gardner, Bronston, Friedman, Honcerelli, Myers, Everts, Cowan, Stone, Tenent, Hampson, Crandall, Cameron, Terroux, MacDonald, J. R. Smith, Grammel, Blomstein.

NOTICE

The Cercle Francaise meeting which was to be held on Tuesday 23rd is postponed until further notice.

M.S.P.E. SPORTS DAY

The M.S.P.E. Sports Day will be held on Tuesday morning at ten o'clock, at the Stadium.

Unfortunately the Stadium could not be obtained for any afternoon this week as it has been booked up for three weeks ahead, but all students who can, are cordially invited to attend.

Teddy Gives Bare Facts

I would like to go out this evening And stray from the straight narrow path.

But my clothes are a sight And it's Saturday night And besides I must study my math.

But at least I can call up and talk Postponing the idea of math I called up all right But it's Saturday night And—oh yes—she was taking her bath.

—Nebraska Daily.

NEED ASSISTANCE TO CARRY ON WORK

Students Asked to Contribute to S.C.A.

The plans for the financial campaign of the Student's Christian Association, to be launched on the 24-25-26, are undergoing a steady process of development. The students of the R. V. C. have elected representatives to see that a share of the burden is assumed by the members of that institution, and they evince a keen desire to help along in the work.

The aid of two or three members of each year in the various faculties has been enlisted. On Wed., Thurs., or Frid., each student will be approached by these and asked to contribute financially towards the upkeep of the S. C. A.

With a host of social events and meetings of clubs and societies approaching, Strathcona Hall will be strongly in demand. One reason for the need of pecuniary aid is to keep the Hall on a firm financial basis so that it may continue to satisfy a need of the student body. It is not expected that the students will fail in contributing the \$1500 designated as their share of the amount necessary to keep the S. C. A. functioning properly during the season.

No Win—Much Hair.

The student body of the University of Arizona decided at a assembly, that no man would be allowed a shave until after the University had won a game. Anyone violating this rule was to be thrown into the swimming pool. This rule was adopted because the University lost its first two games of the season.

UNION CAFETERIA

PHILPOTTS
TURNS OUT
TO PRACTICE

McGill Quarter-Back Attended Light Work-Out

HANNA MAY PLAY

Signals Rehearsed and Light Runs Were the Order at Stadium

Last night the Senior squad took the field at full strength for a light work-out. Saturday the players were given a much deserved day off and they took full advantage. But with the invasion of the Queen's fair only a week away the training rules are once more being rigidly adhered to and 9:15 p.m. finds every man on the team in the training-house.

Philpotts is once more in shape and will play on Saturday. Hanna, who has been unable to play so far this season because of torn muscles on the hip is rapidly recovering and there is a strong possibility of him receiving a chance at Kingston. "Goldie" Hughes was also out and went through a light kicking and catching practice. The rest of the squad took light runs and finally engaged in a short scrimmage for a signal practice.

Among the new comers to the McGill rugby team is Ray Gordon. Gordon has shown considerable ability both as a quarter-back and a half-back and at the present time is playing inside wing on the firsts. His presence on the line should strengthen it considerably.

Next Saturday there will be a battle-royal when Queen's meet McGill on their own ground and the Queen's players know it. They are taking no chances even though they have already this season taken the measure of their two opponents. Daily practice is the rule according to information received from the home of the Tri-Color and Coach Hughes intends spending much time for the next few days on the weak spots that appeared in the game with Varsity. On the other hand, the McGill team will be at full strength if everything goes all right, and at full strength the squad are no mean opposition and the chances are that next Saturday the story of the game may be very different from those of the others.

R.V.C. ANNUAL
SPORTS TO BE
HELD FRIDAY

Events Will be Staged at Stadium

LARGE ENTRY

If Weather is Unfavorable R.V.C. Gymn. Will be Used

Preparations for the R.V.C. Annual Sports which will be held at the Stadium on Friday at 2:15 p.m. are now well under way. Should the weather be unfavourable, it has been decided to hold the Sports in the gymnasium at the R.V.C. as it is impossible to postpone the date.

Quite a large number of students have signed up for the different events and as the majority are from the first year, there will be a great struggle on the part of the other years to keep the "Freshies" from carrying off the laurels.

It is very difficult to find a time when all the contestants are free from lectures in order to have "eliminations" so it has been decided that all the practices, which will be held from 2-3 p.m. at the Stadium on the three remaining days before Sports Day and at such other times as are arranged by the Managers, all entrants will be "timed" in the races and their distances will be taken in the jumps and throws and in this way eliminations will be carried out for each event. Every entrant must have had three practices in each event for which she has signed up, before Sports Day, Friday, or she will be disqualified for entrance.

Should the weather continue to be as favourable as it has been during the past week, Sports Day this year will be a great success. With the air as cool and fresh as it has been for the last few days and the great enthusiasm which has been shown, many records should be broken.

Miss E. M. Cartwright, Director of the Physical Education Department for Women, has very kindly consented to act as referee. Miss Wain and Miss Harvey, both members of that department, have also accepted different duties, and all three are acting as coaches for the different events.

This year "the old girls" of R.V.C. have been asked to act as judges of the various events; this will make the occasion an opportunity for the ne-

SEMI-FINALS OF
M.S.P.E. SPORTS

Enthusiastic Entry and Keen Competition

On Saturday morning with a glorious sky overhead and just enough of Autumn in the air to give "pep" to the performers, the semi-finals for the M. S. P. E. Sports Day were run off at the Stadium. There was excellent competition as, while every Physical Ed. had to enter at least two events, most of them took advantage of the ruling allowing each entrant to take part in any four events.

Judging from the results there will be much friendly but keen rivalry in the finals to-day not only for the individuals but between the two years. Last year the M. S. P. E. '24 succeeded in winning the cup presented for highest year aggregate. While hoping to retain it for another year they realize that their greener sisters have much on which to base their hopes.

Miss M. Robertson should be an outstanding performer for the freshmen as she gained a place in each event she entered. Much interest is being centered on the hundred yards dash in which Miss "Pop" Pulkington '24, last year's winner will compete with Miss Crang, Alberta's champion, and a member of the class of '25.

The results of the semi-finals for second and first years given below show those who will uphold the honour of their respective years to-day at the Stadium.

WEEKLY SHOOT OF
RIFLE ASSOCIATION

Last Meeting Before Picking Team

The weekly shoot of the McGill Rifle Association was held at the Pointe aux Trembles Rifle Ranges. The weather was excellently clear with a strong gusty wind blowing. In the early part of the day, the wind was "head on" but in the afternoon, at the 500 and 600 yard ranges, it changed to a cross wind, which made good marksmanship difficult. Those present were: Dr. Tait, Gould, Hunter, Delcellier and Whelan. This was the last shoot before picking the team to represent the College. The next meeting is on Oct. 27. The party will meet at Strathcona Hall, at 8:45 a.m. and proceed to Pointe aux Trembles. The eight highest scores will form the team, to shoot for the Inter-Collegiate Cup. The four highest scores yesterday were: Hunter 95, Emmons 85, Mooney 84, and Williams 82. The remaining scores followed very closely. The club has some excellent rifles, and is desirous that all those interested in shooting will come out to the next shoot, and see what they can do.

If I had a million dollars,
I'd travel fast and far,
If I had five hundred thousand,
I'd wed a movie star,
If I even had two thousand,
I'd get a classy car,
And gosh—if I only had a dime
I'd get a peanut bar.
Nebraska Daily.

newing of old friendships and keeping in touch with College activities.

The programme for the day will be as follows:

1. 50-yards dash.
 2. Running high jump.
 3. Javelin throw.
 4. Running broad jump.
 5. Basketball throw.
 6. 100-yards dash.
 7. Graduates' race.
 8. Hurdles.
 9. Tug-of-war.
 10. Inter-Year relay.
- Students may compete in two track events out of three, in two jumps out of three and in five events in all.
- Tickets are now obtainable from the Managers of the different years.
- Fourth year—M. Pennington.
Third year—M. McWatters.
Second year—A. Carter.
First year—T. ...

LAW TWELVE
TAKE SCIENCE
INTO CAMP

Engineers Receive First Set-back of Season

SCORE 16-5

Many Broken-Field Runs Featured Game

Yesterday on the old campus before a large crowd of spectators Law won its first game this season by defeating Science 16 to 5. The play was up and down the field leaving the issue undecided till the last quarter.

First Quarter.

Law forced the ball up the field and kicked for one point. Later on by Birkett in an attempt to kick Pierce recovered a ball from a fumble and pushed over for a touch. The touch was not converted. Score Law -6 Science -0.

Second Quarter.

The Law snapped wide and Abinovich was forced to make a safety touch, score (6-2) Science got the ball and worked into position for a drop. Goldie put the ball clean over the centre of the bar in a neatly executed drop kick. score (6-5).

Third Quarter.

Pierce made long gains for Law and forced it over the line for a second try. The touch was not converted. Score: 11-5.

Fourth Quarter.

Science dribbled kick-off and Law fumbled the catch. Alex Moore went through the line for long gains. Law obtained possession of the ball. Pierce's hurdling evaded tackles and he made long gains around the end. Law kicked in touch and Science returned up the field. Pierce in a very spectacular run, ran back the ball for 40 yards.

Near their line-a catch was fumbled by Science and a Law man emerged from under the mass of players with the ball scoring a touch. Ten minute quarters were played. This is Law's first game this season. Science played last Saturday and were short several men.

McCall suffered from injuries to his nose while Mace was carried off after a collision but suffered no serious injury.

Goldie, Hamilton and Moore showed up well for Science while Abinovich and Pierce were the backbone of the Law team. The game was rough in spots and fumbling was in evidence.

Gab Chisholm handled the whistle in a satisfactory manner.
Line up as follows:—

Left Half	Right
Chauvin	A. Moore
Centre	
S. Pierce	Birkett

BRITISH RUGBYISTS
PLAY VARSITY SOON

All players who wish to compete for places on the team which is to tackle Varsity in their home town next Saturday, are asked to be on the Campus at 4:15 today.

Strenuous competition is expected as McGill must send down as representative a team as possible to meet her old rival, and those whose names do not appear, or those who are put in B. team below, are notified that they will be given a fair chance to make a place.

The kick-off at 4:14 will be in the following formations:

A. Team.	B. Team.
Forwards.	
Wilson	Trites
Lochead	Campbell-Brown
Brown	Red McLeod
McKinnon	Amos
MacDerm	Kingsmill
Walter	Murray
Hart	S. Stevenson

Wyse	Hashey
Beaton	Dickson
Holman	O'Brien
Three-quarters.	
Marpole	Everett
Cooper	Langley

TROPHIES FOR
COMPETITION
OF HARRIERS

New Men Show up Well at Practice

ANTLIFF OUT

Annual Run Takes Place Friday

The long distance men who will compete in the annual harrier meet next Friday are getting into very satisfactory shape. For the first time in years the harriers will be striving for trophies as well as for a place on the representative team.

Although practically every man is new to the team, every one of them has come along at a most satisfactory rate. Egerton alone remains of last year's team, but with such men as Hart, who ran the mile in the Inter-collegiate Track Meet at Toronto, Sims and Brain two freshmen who have shown wonderful improvement since their first appearance on the track, and with Wade, Clement and others who have made excellent showings, the squad should measure up well with those of the past.

But the team has not been getting the support it should. To date the university has shown little interest in the long distance runners who have been working hard to uphold the name of McGill in this branch of sport. Few men have been turning out, which in itself is discouraging to those who are striving to do their best for McGill.

An old McGill man, Bill Antliff, whose record for the five mile harrier course has never been equalled, has been turning out with the runners helping them to develop into the best possible long-distance men. The fact that McGill's "Old Boy" is willing to do this for his Alma Mater should act as an incentive to those who are still attending the university to do their best for the college.

LAST MINUTE
GOAL GIVES
McGILL WIN

Y.M.C.A. Play First Polo Game With McGill

FORSYTH SCORES

Hard Checking Prevailed Throughout Entire Game

In a fast and spectacular game, the McGill Intermediate Water Polo team lost that of the Y. M. C. A. by a score of 1-0.

For three periods the teams fought hard, with the Y. M. doing most of the pressing. In their anxiety they were shooting from all over the tank and many wild throws resulted. There were times however when they would work close in and only the cool headed playing of Jardine, in goal, prevented from scoring.

The checking was fairly strenuous throughout the entire game though especially so in the last quarter when both sides realized that one point would mean victory.

The only goal of the game was scored by Forsythe and it came as a fitting climax to a McGill offensive movement. Just previous to this joyful event Vickerson had nearly scored and it was the fault of the Y. M. defensive men failing to clear properly that cost them the game.

The Play.

McGill won the toss and began defending the deep end. Vickerson got the ball at the face-off and play hovered around centre-tank. Finally Laidlaw received a pass near the McGill end and forced Jardine to make the first save. Quarter time went with the Y. M. shooting at every opportunity.

McGill again secured the ball and again the play began to liven up. Kyle and Reekie did some wrestling in the shallow end, resulting in the latter swimming the ball in and giving Jardine a hard shot which he handled in good style. End to end rushes continued until half time; just before the gong Bethel was taken with cramps in both legs and forced to retire.

The second half opened with Vickerson getting hold of the ball; after some passing Bethel made a fast back hand shot across the mouth of the goal. More hard checking followed with the Y. M. boys working the harder. Laidlaw drew in close and hit the post with a hard shot.

FIRST INSPECTION
FOR ELECTRICALS

Tramways Plant to be Visited

The Junior and senior "Electricals" assembled at 2:15 today in the Union for the first of their inspection tours of the year. The party is to proceed to the Hochelaga plant of the Montreal Tramways where arrangements have been made to allow them to make as complete an inspection of the plant as they desire.

The Professors of the third and fourth year electrical have kindly consented to cancel all lecture laboratory and problem work for the afternoon to give the students an opportunity to take in this treat.

The Hochelaga plant is one of the most interesting of its type in the city containing two large generating sets which extend vertically three stories and there is at present under construction another similar machine so that this afternoon opportunity will be afforded not only to see the unfinished machines in operation but as well to note the processes of that all important branch, construction.

The Electrical Club held its first meeting of the year last week and at that meeting it was determined that the comparative inactivity of the last few years must no longer continue and so the year's activities are to start to-morrow in this tour.

The next item on the programme of this club takes place on Friday next when the "Engineers" are to be honoured by an address by the celebrated Mr. Best. Announcement of this will be made at length later and this talk is expected to be of the greatest interest all the science men.

shot.

The McGill centre again outswam his opponent for the ball and the three McGill forwards went down in front of the Y. M. goal.

Laidlaw was left uncovered and Jardine saved what looked like a certain goal.

Then Vickerson snatched the ball from a defense man and nearly saved on a pass out from the net.

In the play which followed the McGill men crowded round the goal-mouth and Forsythe finally swept the ball across the line with but forty-seven seconds to go. The Y. M. Players tried all kinds of shots in an effort to even up but the going went shortly after leaving McGill in the lead.

Today the McGill Swimming Team is going to the National Tank for a practice while the poloists will meet

THREE FACULTIES WILL VOTE FOR UNION REPRESENTATIVES

Four Men Running for Law Rep. Six Men up in Medicine and Science—Four to be Chosen. Arts, Dentistry and Commerce Stand by Acclamation. Polling takes Place on Friday.

With the close of nominations yesterday at 6 p. m. for Representatives from the different faculties to the Union House Committee for 1923-24 men from three faculties were elected by acclamation.

Everett of Arts, Grant of Dent, and Waite of Commerce were the only students nominated from their respective faculties. These faculties are each represented on the committee by one man. Law also elect one representative today at 6 p. m. for Representatives but in this faculty four men have been put forward to stand for election next Friday.

Medicine and Applied Science are entitled to two men each, and in each of these faculties three men have been nominated: from Medicine, O'Regan, MacLean, Lanthier, and from Science, McNaughton, Gilmour, and Dingman.

The nominations were required to be in writing and signed by ten members of the candidate's faculty. Except in the case of Medicine, all candidates were required to be from the Junior year. The elections will be held next Friday, October 26, and will be by ballot. Following is the list of nominations:

We, the undersigned wish to nominate Philip Waite as the Commerce Representative on the Union House Committee:

C. Schofield, Terry Mitchell, George Grinson, W. B. Potter, E. H. Elliot, R. A. Parker, Brock Jamieson, Paul Brecht, Earl Witmer, Lovell Mickles.

We, the undersigned wish to nominate H. Grant as the Dental Representative on the Union House Committee:

M. Thomas speaks on beaux arts.

(Continued from Page 1.)

fact is, said M. Thomas, that Canadians prefer to buy cars and live in inadequate apartments, while in France most people have their homes very beautiful on the inside, but have no cars. Even the French peasant appreciates the value of historical and artistic objects, and often is not slow in turning an odd penny from this sense of value.

The most beautiful buildings in a should be its churches, but this is not always the case here. The artist of the future who will build beautiful cathedrals will not do so merely because he takes pleasure in seeing a work of his own hands completed to his artistic satisfaction.

There are many things to praise in French Canada, in spite of all that has been said. Among them are the erection of a school of fine arts here and one in Quebec, and the appointment of a historical commission by the government. There remain to be created a national French stage, and a French conservatorium of music. The people are willing enough to bring such things about, and they may find much inspiration in the tradition of the Catholic Church.

Last of all a great museum to represent French ideals is needed, in which there will be one room for artists, another room for the national scenery, and a suite of rooms for French-Canadian writers. It is in all artistic undertakings, in this province, to get in line with French traditions. At the bottom French-Canadians are French, and nothing else. Representatives from France have not always been sympathetic towards their race-brothers on this continent, but they do not represent true French opinion, which is heartfelt in its gratitude to Canadians for their aid in the recent war. A certain French journalist has written that the spirit portrayed in the novel, "Marie Chapdelaine" will never die.

PHIL WAITE CHOSEN BY COM. TWENTY-FIVE

In a short meeting this morning Second Year Commerce elected Phil Waite to represent the School of Commerce on the Union House Committee. Four candidates were nominated and the vote which followed was very close. Waite has been around college and his wild acquaintance active in various activities, very active in various activities, and coupled with a good knowledge of present conditions should stand him in good stead when he takes up his duties.

One of the tragedies of life rests in the fact that man in love spends his lonely moments in devising pretty speeches to warble in his beloved one's ear, and when he is with her he passes the time either in being a downright dumb ninny, or else in wrangling with her.

Life's a joke
All things show it;
Look at Bill
And then you'll know it.
Rex.

ELECTRONS

Picked up here and there around the Science buildings, "Electrons" will appear occasionally as material collects, so if anything that will be of interest is available it should be handed to "Harpe" in the Science building, marked "Personal," and addressed to "The Positive Nucleus."

The last week the Nucleus has been very active, and long and strong has been its reaching out for material, and finally it has made a really big haul. This Electron will be of great interest to the Miners, but it will give to all the Science men an idea what an immense field engineering really is.

The Nucleus is truly grateful to the author of the following for his great trouble in its preparation.

The Mining Field School for men entering fourth year in Mining and Metallurgy took place during May of the present year. Most of the men had signified their willingness to go to British Columbia and on the evening of May 4, a special McGill car was attached to the regular Soo train on the C. P. R.

The first lap of the journey was from Montreal to Sudbury where visits were paid to the plants of three nickel companies. The first stop was made at Coniston, east of Sudbury, at the smelter of the Mond Nickel Company. During the preceding night the members of the party had made the acquaintance of "George," the porter, and had already earned his thorough dislike, due to the many demands made upon his somewhat easy-going self, and to their incomprehensible desire to thoroughly enjoy themselves at irregular intervals during the night. The men were guests of the Mond Co. for luncheon at the staff club, and the afternoon was spent in the smelter, and at the power-house some distance from Coniston. A banquet was held in the evening at the Club house, at which Dr. Corless, a prominent McGill graduate presided. The Mond Company's staff is composed almost entirely of McGill men and their kindness to the members of the trip each year is proverbial.

On Saturday morning the Miners visited the Creighton Mines, inspecting underground and surface, and the Metallurgists were taken through the Copper Cliff smelter of the International Nickel Company. Later in the day, the Miners also visited the smelter at Copper Cliff. A tremendous rush was made on the Nickel Range Hotel in the evening, and it was rumoured that extra pumps in the waterworks were necessary to supply water to the Hotel. Many members of the party investigated a rumour to the effect that "Silver Cream," a product of the Sudbury Brewing Co. was really a little stronger than the Ontario Temperance Act allowed, but the results of these investigations are necessarily suppressed. The following day, being Sunday, was spent quietly(?) at the car, although some men left early in the afternoon and arrived back at the car after midnight, and of course, were accused of "stepping out." During the night the car was moved to a junction on the C. P. R. about forty miles west of Sudbury, and on Monday morning the party was taken, a la flat-car, to the Levack Mine of the Mond Nickel Co. Everyone, including the Metallurgists descended into the bowels of the earth, and as each ship load of men descended, the remainder on surface sang mournful ditties to them. Breakfast was supplied to the men while at Levack. The menu for this meal and the ability of certain men to eat, was a topic of discussion for many days.

We, the undersigned, hereby nominate B. C. MacLean as candidate for Medical Representative of the Union House Committee.

M. I. Bloomfield, J. S. Henderson, A. G. Hill, M. Herman, C. Menzies, F. B. Chalmers, J. A. Byrne, K. M. Scott, H. C. Driker, W. J. Abey.

We, the undersigned being Undergraduate Students in Medicine do hereby nominate John Lanthier M.D. '25, as candidate for Medical Representative on the Union House Committee for session 1923-24.

C. S. Thompson, J. P. Lantz, J. J. Webster, J. G. Senecal, G. K. Dempsey, G. Wight, D. E. Turkess, C. J. Tidmarsh, E. E. Day, B. C. Leech.

We hereby nominate Frederick Valmore Hudson as Law Representative on the Union House Committee.

Frederick T. Collins, N. Charbonneau, F. K. Stevenson, P. Wickham, Paul Gauthier, W. M. Bourke, E. M. Macdonald, W. F. Pratt, F. B. Chauvin, D. F. Shea.

We hereby nominate W. F. Pratt as Law Representative on the Union House Committee.

Frederick T. Collins, N. Charbonneau, F. K. Stevenson, P. Wickham, F. V. Hudson, W. M. Bourke, E. M. Macdonald, Paul Gauthier, W. F. Pratt, F. B. Chauvin.

We hereby nominate William Manly Bourke as Law Representative on the Union House Committee.

Frederick T. Collins, N. Charbonneau, F. K. Stevenson, P. Wickham, F. V. Hudson, M. Bourke, Lawrence Cohen, Paul Gauthier, A. Macdonald, W. F. Pratt.

MARITIME LOOKING FORWARD TO DANCE

The Maritime Club held its first meeting of the year at the S. C. A. yesterday afternoon. D. M. MacGillivray, last year's president, opened the meeting.

The following officers were elected at the meeting:—
Hon. Pres.—Dr. R. MacDonald.
Pres.—MacCauley.
Vice-Pres.—D. Hutchison.
Secretary.—C. Thompson.
Treas.—J. Lantz.

It was decided to elect representatives from the different faculties instead of from the provinces, as has been done heretofore. The representatives are:—
Medicine—MacKenzie.
Science—MacDonald.
Arts—McKay.
Commerce—Glenny.
R. V. C.—J. Saunders.

The fee of one dollar will remain the same as last year. A discussion arose as to the social activities in which the club would be engaged. A preference was shown for a dance, to be held in conjunction with the Western Club before Christmas. If possible, the meeting was then adjourned.

R.V.C. '26 AND R.V.C. '27 HOLD JOINT MEETING

A joint meeting of R. V. C. '26 and '27 was held yesterday at one o'clock. Miss Fielder spoke on behalf of the Société Française and the Musical Society, for the benefit of the Frenchbottles and the purpose and nature of the Société, and urged that all undergraduates support it both because of the benefit and pleasure derived from it, and in order to help the executive who are doing so much to make this important society a success. A good attendance is desired on Thursday the 25th, at four p.m.

The Musical Society is a new enterprise and it is hoped that many of the students will take advantage of the opportunity of having good music, and taking part in the interesting discussions which will form a part of the programme.

A short business meeting of R. V. C. '26 followed at which the financial report was read and the class colours were chosen. The meeting a great friendly Freshman-Sophomore.

FROSH-SOPH BANQUETTING PLANS AWRY

(Continued from Page 1.)

The Sophomores, however, did not all fall in line and it is now certain that Science, Dentistry, and Pharmacy, will not take part. Already they have made their arrangements for separate banquets elsewhere. The plans of Medicine and Commerce cannot yet be ascertained but it is almost a foregone conclusion that they also will not banquet at the Union. Arts are still uncertain but decide their course of action to-day.

Many are the reasons given for the actions of the Sophs. Some classes do not seem to want to associate with either classes; others are evidently of the opinion that the Union could not accommodate the proposed gathering; while still others seem to fear that a banquet in the Union would not be quite gay enough for them.

Mr. Hennegar has to start in now and arrange for the cancellation of at least some of his orders and already certain expenses have been incurred, with plenty of worry caused.

WELL-KNOWN STATESMAN SPEAKS HERE TO-DAY

(Continued from Page 1.)

"Count Apponyi is undoubtedly one of the most remarkable statesmen of Hungary. For half a century he has been a leading figure in the public life of the country. Even those who bitterly fought him and his policies admit that he is a man of whom any parliament in the world would be proud because of his intellectual gifts as well as for his oratorical ability and moral qualities. There can be no doubt that Count Apponyi is a man of extraordinary brilliance and culture. He is powerful speaker; not only in his mother tongue but in five or six foreign languages he can stir an audience to tears. But the eminence of this man is perhaps greater in the moral sphere. He has been clean and disinterested in a political milieu where corruption and graft, business greed and nepotism play a very important role. In his private life, too, Count Apponyi has been an example of civic virtue; he has lived a modest, even ascetic life in surroundings of splendour and luxury."

Count Apponyi is a Roman Catholic, and a great land-owner in a country where medieval feudalism still survives. At the same time he is a man of liberal thought and great sympathy for those in humble circumstances. He stood out boldly, during the recent "White Terror" against the anti-Jewish riots in Budapest.

ery, a McGill graduate is Superintendent, Mr. Bruce Ritchie, also a McGill Science graduate, Asst. Supt. of Mines for the Consolidated Mining and Smelting Co. accompanied the party from Kimberly until the end of the trip on May 28th. At the Sullivan, the mine and the new concentrator and rack-house were critically studied, and each man given instructions in Mine surveying, a dance was given in honour of the School and the last night of the visit the cars being moved to Trail next day.

At Trail, where the world-famous smelter is located a very enjoyable week was spent. Carefully planned trips through the many departments of the smelter were carried out during the day, under competent guides, most of them being McGill grads. Dances, banquets, and other social activities took place in the evenings. A never-to-be-forgotten banquet, held by the Kootenay McGill graduates, took place in Trail, with a subsequent party at the Rosland Club.

The last two days were spent at Rossland, the Centre Star and Le Roi Mines of the Consolidated M. and S. Company being inspected. Here, as in every previous visit, the officials proved to be fine fellows, and explained mining operations thoroughly. The party broke up at Rossland, most of the men leaving for jobs in various parts of British Columbia.

THE IMPERIAL

Once again the Imperial has succeeded in giving to its audience a really enjoyable programme. It was a real vaudeville bill, with enough of everything to satisfy the most exacting tastes.

Greenwood, Rose and Company in a sketch entitled "Simon and Hersh" without a doubt deserve the headline position. The scene is laid in the office of a prosperous firm. The Junior partner enters and after instructing the stenographer to see that Mr. Hersh the senior partner receives a certain message, he beats a hasty and precipitate retreat. Enter the Senior Partner. He reads the note, his face becomes flushed; his partner has absconded with the firm's money. The excited Mr. Hersh has not had sufficient time to recover from his first excitement when the "villain" enters. He wants to murder Mr. Hersh for the insignificant sum of fifteen hundred dollars in order that Mr. Hersh's family may receive insurance. Mr. Hersh signs a cheque and the stage is set for the murder. Then the denouement. Mr. Simon the Junior partner returns, saying that his departure was merely temporary, designed to instil fear in the heart of Mr. Hersh. But at the finish all are happy, in fact, Mr. Hersh invites his associate home for dinner.

"Rubeville" the runner up for the premier position on the bill depicts American rural life as one has grown accustomed to regard it from its portrayal in the "funnies." The only discrepancy was the sign "U. S. Postoffice" and behind it an advertisement for "Dow's Aie." What about the Volstead Act.

Matylee Lippard presented his conception of a Montreal flapper. The audience seemed to agree with her conception.

Marguerite and Flavarez are excellent acrobats and received much well merited applause.

Dunlevy and Chesleigh entertain the audience with some mirth producing cross stage chatter. Mr. Dunlevy appears on the scene with an extraordinarily large umbrella which he borrowed from Morgan's "when the man wasn't looking."

Liddell and Gibson, imitate women and their reputed eccentricities to the height of perfection. No one knows that they are members of the strong, or sex till they remove their wigs.

Four amateur turns were also on the programme. George Delisle, The Masked Dancer, Al Edward and Le-felvre and Cope. A great ovation was accorded all the novices.

The evening's feature picture is "Daughters of the Rich" and tells the story of a man and woman made social outcasts through an unkind act of fate. But the last scene finds them reunited and they "live happily ever afterwards."

Fox news is also on the programme.

He Did His Best.
Trump: Say, boy, your dog bit me on the ankle.

Boy: Well, dat's as high as he could reach. You wouldn't expect a little pup like him to bite yer neck, would yer?

SCIENCE PREPARED FOR BUSY SEASON

Representatives Named for Annual and Prom

Science Juniors have shown great activity in holding the elections for representatives on both the Annual Board and the Junior Prom Dance. Although the Junior Dance is near the end of November this year, it is hoped that the Juniors in the other faculties will elect their representatives immediately if they have not done so already in order that the plans for both the Annual and the Prom will have an early start, and that the work may be divided up evenly.

R. M. P. (Bob) Hamilton, a Science Football star, and Beverly Boulton are both hard workers and will no doubt represent their class on the Annual Board to the very best of their ability.

The men elected for the Junior Prom are hard workers as well as keen dancers. These are G. M. Conner, John W. Murray and Cliff Cotter.

FIRST MEETING OF DENT UNDERGRADS

Programme Gives Promise of Enjoyable Evening

Tonight at 8.30 in the Assembly Hall of the New Medical Building the Dental Undergraduates will meet for the first time this year. The attendance expected is extremely large as there is a fair sized Freshman year, besides a number of newcomers to the upper years from outside universities. This has for years been the most popular of the Society's meetings as it is held in the get-together-and-get-acquainted spirit.

As for the programme, there is a good deal of promise for enjoyable and interesting evening. Dr. A. W. Thornhill will be present to deliver an address, and from past experience the society can assure newcomers of some-thing worth while. Other features of interest will be music, refreshments and plenty of smokes.

The executive is very anxious to see as large a turnout as possible, particularly of the freshmen. Every man is expected to be present to meet the "rest of the boys." Everything has been done to make the meeting a success and all members are asked for their earnest co-operation.

MANY HEARD SIR H. GREY ON SURGERY

(Continued from Page 1.)

To illustrate this topic, Dr. Grey then cited several examples of natural surgery. The first dealt with war wounds giving the treatments in different forms of wounds. Following this he turned to the question of drainage and it is his belief that even in advanced stages of gangrenous appendicitis drainage is not necessary. He then dealt for a short time on the question of dressings in which he stated that it was not necessary, in fact it was harmful, to dress wounds too frequently because of the increased pain, the trouble, and the loss of time.

In conclusion Sir Henry stated that surgery is a complex of simple things and their importance lays in their relation to one another.

The generous round of applause which followed Sir Henry's address proved his increasing popularity among the medicals.

Previous to the address a short business meeting was held at which J. S. M. Hamilton was elected Medical football manager. Crocker supplied the music for the evening which was very much appreciated. Following refreshments and a solo by Mr. Tobin, commonly known as King Cook III, the meeting ended with a hearty McGill yell.

Smoking!

Since the smoking habit seems to be gaining in popularity among the women of today, the question naturally arises of whether the women student of this University will hold their own smokers during the coming year. To some, this will appear to be among the class of events which are "possible, but not probable," while to others it will seem one of the most vital questions to be dealt with.

It has been suggested by some one that the follies of High Jinks be done away with and a first-class smoker be held instead. Of course much can be said on either side of this suggestion. First of all, think of how it would eliminate that awful mental struggle which is involved in the effort to think up something to "go as." Yet again, think of the terrible expense which would be incurred in the purchasing of smoking jackets, cigarette-holders, ash-trays and other necessary materials.

However, we shall see what we shall see. There is no telling what the women will do, specially when they assemble in one of their enthusiastic undergrad meetings.
